

MOHAMMED HARRIS. A

Bangalore, India | +91 9500348308 | mohamed.harisabu@gmail.com | [linkedin](#)

Professional Summary

A Technological Strategist and Engineering Leader with 7.5+ years of experience delivering scalable, high-impact mobile and web solutions. Proven record of **reducing cloud costs, leading multi-platform app development**, and **aligning product roadmaps with business goals** to drive growth and efficiency. Bridging technology and business: Experienced in leading mobile, web, and backend teams to deliver end-to-end scalable products while aligning development outcomes with strategic business goals.

Technical: Core-Java, Kotlin, Flutter, Angular, Firebase (*Authentication, Firestore, Realtime Database, Cloud Functions, Hosting, Push Notifications, Analytics & Crashlytics*), REST APIs, Figma, MongoDB, Git, Google Cloud Platform (GCP).

Business & Leadership: Product Strategy, Cost Optimisation, Team Leadership, Client Communication, Business Analysis, Stakeholder Management

Business & Technical Impact

- Reduced **Google Cloud / Services costs by 60%** through architecture optimisation and data storage restructuring.
- Improved app performance, resulting in higher user retention and better engagement metrics. Delivered **5+ major apps** (mobile, web, and smart TV) end-to-end from architecture to release and unified user experience for over 300,000+ users.
- Managed and mentored a **cross-functional team of 25 members**, improving delivery timelines by 25% Collaborated with business stakeholders to translate requirements into **scalable technical solutions** aligned with ROI goals.

Leadership & Strategy

- Partnered with product and business teams to define feature priorities and delivery milestones. Defined CI/CD pipelines and code review processes, improving deployment reliability.
- Mentored junior developers and ensured cross-team knowledge transfer to maintain long-term scalability.
- Involved in business proposal discussions, providing technical insights to align development with client expectations.

Education & Certified

- **Master of Computer Application** (March 2017), Jamal Mohamed College, Thiruchirapalli.
- **BSc, Information Technology** (March 2015), Jamal Mohamed College, Thiruchirapalli.
- **Microsoft Certified** - Azure Database Administrator Associate (2017)

PROFESSIONAL EXPERIENCE:

Technical Manager

ReadyAssist, Bangalore
(June 2020 – Present)

- Built and scaled ReadyAssist's mobile ecosystem from the ground up, overseeing architecture, design, and deployment across Android (Kotlin/Java), iOS (Swift), and Flutter platforms.
- Led and mentored a 12+ members team, driving innovation, ownership, and agile execution through CI/CD pipelines and scalable cloud environments (AWS/GCP).
- Defined and implemented architecture and product roadmaps aligned with business strategy, enabling faster go-to-market cycles and improved operational efficiency.
- Optimised Firebase ecosystems and integrated analytics to enable data-driven decisions, enhance app reliability, and improve engagement metrics.
- Fostered close collaboration between engineering, product, and design teams, ensuring seamless user experiences and cohesive product delivery.
- Drove continuous improvement through modernised tech stacks, performance optimisation, and process excellence directly contributing to digital transformation and business growth.

Software Engineer

Chimera Technologies, Bangalore
(April 2019 – June 2020)

- Developed Android and hybrid mobile applications, using Java, Kotlin, and Ionic to deliver high-quality, scalable products.
- Collaborated closely with product managers, designers, and back-end developers to ensure robust, well-integrated features.

Jr. Android Developer

360 Nautica Tech Ventures, Bangalore
(April 2017 – June 2019)

- Built and tested Android apps (Java), engaging in end-to-end product cycles from requirements to production deployment.
- Facilitated team code reviews, design discussions, and agile process improvements.

Founder & Developer – Yaatriq (in development)

A mobile-first platform built using Flutter and Firebase, designed to empower Indian bike riders and tourers to discover co-riders nearby, explore local rides, and share tour plans.

— *Yaatriq, a community-driven app that helps riders connect with fellow bikers in their area and access valuable ride information across India.*

Awards & More..

- **Employee of the Year (2021)**, ReadyAssist
- **Iron Pillar Award (2022)**, ReadyAssist
- **Languages** - English, Tamil, Kannada, Malayalam
